

THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 26.

Kelowna, British Columbia, Thursday, June 5th, 1930

NUMBER 43

ANNUAL MEETING OF GROWERS' EXCHANGE

Material Gain In Acreage Under Contract This Season—No Change In Dividend Policy

Interest in the affairs of the Kelowna Growers' Exchange was manifested by the representative attendance of members of that organization in the I.O.O.F. Temple on Friday, when morning and afternoon sessions were occupied with discussion of matters relative to past operations of the Exchange and plans for the future were debated. At the afternoon session, Mr. E. J. Chambers, President of the Associated Growers of B. C., reviewed the past year's activities of the Kelowna Exchange, and presented an encouraging outlook for the 1930 season.

Capt. C. R. Bull, President of the Exchange, occupied the chair throughout the proceedings, supported by the Secretary, Mr. W. V. Witt, who read the minutes of the last annual meeting and the minutes of an interim meeting held this year, both of which were adopted. Before the meeting was called to order, copies of the seventeenth annual report and financial statement for 1929-30, embracing the Directors' and Auditor's reports, were distributed to members. The chairman read the Directors' report, supplementing it in some cases with more detailed verbal explanations and replying to questions relative thereto, which consisted of the business of the morning session.

Feed Store Profits

Disposal of feed store profits, 25% of which were allotted to the feed store reserve, the remainder for distribution to shareholder purchasers, was first discussed. Mr. W. V. Witt, being of the opinion that the amount set aside for the reserve should go to those who bought feed, either in cash or shares.

The chairman felt that the matter was not one for discussion at that time. When their objective had been obtained, other proposals could be considered.

Mr. C. E. Atkin averred that Mr. Witt's point was that those patronizing the feed store were alone swelling the fund to pay for the proposed new building.

Following some further discussion, the matter was dropped.

Importance Of Crop Estimates

Referring to crop estimates, the chairman said that the collaboration of members with the estimator from the Exchange had been requested in the annual Directors' report for several years and it was a vital matter. They had suffered loss last year through lack of collaboration in this regard. If expense of a big carry-over in boxes was to be reduced, or the inconvenience of a shortage saved, it was important that a close estimate be obtained. Two estimates were essential, he said.

In reply to a question, Mr. J. M. Robinson, Manager of the Exchange, said that the carry-over last year was the result of a fall down in the estimates in the Glenmore district.

A grower stated that the estimates taken at Rutland were badly done, to which the chairman replied that in his own orchard, the estimates had been fairly accurate. He always gave the estimator every assistance, which was a factor in arriving at fairly reliable figures.

Packing Houses

Under the sub-heading of "Packing Houses," the Directors' report reads as follows: "We operated only in Rutland, East Kelowna and Town Houses last year throughout the season, and Bankhead on early fall pears, and this year we intend to operate in the same way. All packing was completed by the 4th November, 1929. We have made some very necessary improvements in the Town House. A grader is being installed in the concrete building, which will be used for fall and winter varieties going into cold storage. A grader is also being installed in the concrete building for the packing of tomatoes and cucumbers. We believe this departure will improve the pack and saving this, the chairman declared that the town house was now a real one for the first time. The new arrangements made the cold storage facilities that much more valuable.

Capital And Dividends

Revolving capital, referred to in the report, evoked prolonged discussion and varied opinions. The account showed a sum of close to \$10,000, which will be further increased when deductions from several fruit and vegetable pools not yet closed are made. When the total sum has been realized, it will be used for the redemption of shares outstanding, as provided in By-Law No. 4, sanctioned at the last annual meeting. "B" shares, held by non-shipping members, will be redeemed first, after which the remaining shares subject to redemption shall be redeemed in order of priority.

The chairman stated that the policy in that regard was now a fixed one and that it would take about eight years to redeem the shares.

As no dividend on shares was paid by the Exchange, and as it was the expressed intention not to pay dividends, the reason given being that packing was charged to the grower at cost, Mr. O. St. P. Atkins, who did not agree with this policy, took strong exception to it, stating that he thought it fair to take money at a reasonable rate of interest, even though holders of the shares were non-shipping members. In his opinion, they were entitled to a div-

MARAUDING BEAR TAKES TOLL OF HIVES

Bruin Plays Havoc With Apiaries In Ellison District

A bear with a sweet tooth is on the rampage in the Kelowna district—an intrepid brute that fares forth on nocturnal raids with ruthless disregard of property and in reckless defiance to those who have been trying to capture him for the past two weeks.

Bruin likes his honey, consequently apiaries must suffer. Shotguns, rifles, steel traps—all fade into insignificance in the quest for hives, which are laid low with one playful sweep of his paw, and the cunning bee-keeper makes the round and cheerfully (?) remedies the ravages of the annoying visitor.

It all started about two weeks ago, when Mr. W. G. Clower, of Ellison, discovered one morning that a bear had taken a sudden interest in the apiary industry, had knocked over his hives and had done no little damage. He put things in order during the day, but on the next morning—the next, the next and the next—Bruin continued to pay social calls until finally Mr. Clower moved his bees to a new location.

The bear, deeply injured by such an ungracious action, looked for new fields of operation, eventually selecting Bulman's ranch, which he began to visit with clockwork regularity. A trap was set, but to no avail. Then one night some one drew a bead on the honeyseeker and fired. Bruin evidently decided he had worn out his welcome, for he did not return to the Bulman ranch.

Mr. G. F. Pearcey has an apiary on the Dr. Dickson ranch. Bruin found it and, at the time of going to press, was continuing to favour it with his patronage. He has knocked down the hives five or six times and has rooted in the brood to get a well-balanced diet. On Tuesday night, Mr. Pearcey sighted the nocturnal annoyance and took a pot at him. Mr. Pearcey is "hot on the trail" and is determined to trap the marauder if he continues to invade the premises.

idend, which was paid by every other organization using the people's money. Producing the balance sheet of the Penticon Co-operative, he declared that they paid dividends. Under existing conditions, if a man died leaving behind as part of his estate shares in the Exchange, he left worthless property.

Asked if the Penticon Local paid dividends, Mr. Chambers replied that they were obliged to do so on a series issued a number of years ago, but in a year or so they would have eliminated that series. He admitted that Vernon and Kaleden also paid dividends.

Mr. W. H. McDougall, wondered at the patience of shareholders in allowing such an unhelpful capital fund to take care of itself. He felt the growers should get together and force an issue.

The chairman did not agree with Mr. McDougall.

Mr. A. C. Loosmore, supporting the chairman, declared that if dividends were paid, they would come out of the pockets of the shipping grower. If a shareholder died, his heirs would have to wait for the redemption of the fund to take care of their redemption. As for shipping members, they received value for their holdings in the facilities offered by the Exchange.

A grower remarked that a non-shipping member, breaking away unnecessarily, deserved no dividend. He would not expect a dividend if he broke away.

The chairman stated that there were many arguments pro and con, and that he presented with regard to payment of dividends and it was a difficult matter to consider. He had in his hands at that time a long statement from Mr. Lindley Crease, K.C., of Victoria, which dealt with the matter under discussion, and the eminent counsel's report would be taken up by the Board at a very early date.

Mr. J. Spall asserted that, if a shareholder who had broken away wanted to come back and he was not admitted again as a member, he had a right to demand his money—a moral right, if not a legal claim, to which the chairman replied that such a man would have his money returned as soon as the Exchange was in a position to do it.

Mr. Loosmore contended that, if a grower cancelled his contract and left the Exchange, the Board had no right to take him back.

Mr. H. B. D. Lyons wondered, in view of the fact that 57 per cent of the capital was held by non-shippers, if they could go to the Attorney-General and break up the organization.

The chairman did not think that the public would be inclined to do anything of the sort as the minority were endeavouring to pay off the majority shareholders.

Mr. R. L. Dalglish said that the Exchange was doing its best to meet the situation.

Mr. Atkins contended that those objecting to non-payment of dividends were breaking away, or had broken away, from their signed contracts.

A grower stated that some had to break away when they moved from the district. If he sold out tomorrow, he said, he would not ask for anything back.

The chairman, referring to contracts, stated that some very desirable fruit had been obtained under new contracts and that they had secured all the tonnage they wished to handle this coming season. They had worked on the policy of securing good mixed varieties and the success of the organization had been built up along that line. Winter varieties, which they lacked last year, had been picked up for this season.

Early Payments

Early payments were next discussed. During the season, efforts were made to make advances earlier but, as point-

KELOWNA'S ISOBEL WINS HIGH PRAISE

Leader Of Famous Hart House String Quartette Is Enthusiastic

Kelowna's budding violinist, Isobel Murray, had the honour recently of a private audition with Geyde Kresz, leader of the famous Hart House String Quartette. He was most enthusiastic about her playing and, among other remarks he made in a letter, he said: "She is an exceptionally gifted young violinist and seems to possess that kind of inspired expression which cannot be taught or learned and which, with some intensive work, might carry her very far. She has been well taught and is capable of great further musical and technical development."

Mrs. Isobel is giving a concert to-night at Mission City, assisted by the well-known Vancouver baritone, Ernest Caldwell, who was soloist at Fifth Avenue Presbyterian Church, New York, for five years.

PENSION ACT CHANGES APPROVED BY VETERAN

VANCOUVER, June 5.—The amendments to the Pensions Act adopted by the Dominion Parliament during the session just closed were highly commended today by Brig-Gen. A. Ross, Second Vice-President of the Dominion Command: Canadian Legion, who has arrived from the Provincial Convention at Nelson to address meetings of veterans here.

"Our present view of the new legislation is that it should solve absolutely all problems that we have been suffering from," stated General Ross.

HENRY FORD TO DEVOTE LIFE TO PHILANTHROPY

DETROIT, June 5.—The Detroit Free Press states today that Henry Ford plans to turn all his industrial interests over to his son Edsel, and then to devote the rest of his life to improvement of living conditions in the United States, with an endowment of \$100,000,000 to an economic research institution. He also hopes to give his own services to the endowment.

ed out in the Directors' report, it had been an expensive service, increasing as it does bank interest charges.

Mr. C. E. Atkin felt that if payments were obtained earlier from Central it would help considerably, a matter that should be taken up with Mr. Chambers.

Capt. Bull pointed out that, compared with 1928, advances from the fund had been earlier last year, to which Mr. Lyons replied that he had received his payments no earlier in 1929 than in the previous year.

A conservative policy was followed with regard to vegetable tonnage, said the chairman, and all contracts were submitted to the Tomato and Onion Growers' Associations before acceptance to guard against flooding Central with produce, which protected the industry fairly well.

Mr. C. H. Jackson, Auditor, was called to the platform to read his report and to go into the accounts. Following the reading of his report, the meeting was adjourned until 1:15 p.m.

At the afternoon session, the balance sheet and accounts were discussed. Mr. Jackson answering a number of pertinent questions.

Packing Charges

Mr. Lyons, referring to packing charges, said it was not always easy to determine from a balance sheet the actual packing charges. He felt that packing charges were too high and should have been reduced. High packing charges have militated against the co-operative movement, he declared, and the charges of the Exchange should be lower.

In reply, the chairman stated that he considered the packing costs low. Such charges were determined from the actual packing and shipping costs, and the overhead of the Exchange. Following a detailed explanation of those items, he said that there had been great efficiency in operation last year. The field man had been eliminated last year, the manager instead making valuable contacts with the growers.

Mr. Atkins felt that packing charges should be lower, nevertheless, he stressed the need of more co-operation between the various Locals as one could doubtless benefit by the experience of the other. The K.G.E. balance sheet was possibly the best of all the Locals, but they should get together.

The chairman was in sympathy with the suggestion.

Election Of Directors

Some discussion of depreciation charges followed, after which ballots were distributed for the election of two new Directors, vacancies caused by the death of Mr. F. A. Taylor and expiry of the term of office of Mr. A. C. Loosmore, who had previously indicated his intention to offer himself for re-election.

Before the voting took place, it was intimated that there were several Japanese proxies to be used by holders present. The meeting was reminded that it had never been customary to make use of the Oriental vote, and the chairman understood that a gentleman's agreement had existed in regard to this, promptly waived the right to use them in the election.

The names of Messrs. R. L. Dalglish, A. C. Loosmore and O. St. P. Atkins were on the ballots. When they were counted by the scrutineers, Messrs. Lyons, Walker and McMurray, Messrs. Dalglish and Loosmore were declared elected.

With the exception of Messrs. Bull and Loosmore, who were subsequently declared elected, all Directors declined nomination for Central Directors.

DR. KING LIKELY TO BE MADE SENATOR THIS WEEK

OTTAWA, June 5.—The appointment of Hon. Dr. King to the Senate is expected to be announced on Saturday, when the cabinet meets.

RUTLAND RALLY DAY DRAWS BIG CROWD

Athletic Events, Games, Sideshows And Dance Provide Entertainment For All Ages

Favoured by fair weather, the ninth annual Community Rally and Sports Day, held on the Rutland School field on Tuesday, was a decided success. While rain storms threatened in the surrounding hills, the sun shone down a good deal of the day upon the scene of the sports and races. The attendance was large in spite of counter attractions, and the dance in the Community Hall in the evening was also very well supported.

During the afternoon the Orchard City Band enlivened the events with music, while the noise of the "Housie Housie" and "Aunt Sally" proprietors added a "Fair Day" touch to the proceedings. Refreshment, ice cream and "hot dog" stands, under the capable direction of the Women's Institute, assisted by Scouts and Guides in uniform, did a roaring business all day long. An unusual touch was added by the presence of an aeroplane which landed on the field near the Community Hall in the morning, and took up passengers on flights over the district during the day, its appearance over the field from time to time distracting attention from the events in progress.

Junior Races

The programme for the day commenced with junior races which were run off by Mr. H. Thornton, as starter, with Mr. LePargneux as clerk of the course, and Messrs. Todd and Bush as judges.

The following is a list of the events and the names of the winners:

Girls, 6 and under—1, A. Lock; 2, M. Charlton; 3, D. Nicholson.

Boys, 6 and under—No entry.

Girls, 7 and under—1, Alma Gray; 2, S. Yamaoka; 3, Irene Lube.

Boys, 7 and under—1, A. Burill; 2, Fred Stevens; 3, P. Bone.

Girls, 8 and under—1, Enid Eutin; 2, Alma Gray; 3, E. Ward.

Boys, 8 and under—1, Jimmy Duncan; 2, J. Cappozzi; 3, L. Marshall.

Girls, 9 and under—1, M. Todd; 2, Made. Charlton; 3, Gladys Moyer.

Boys, 9 and under—1, Basil Bond; 2, Alfred Owen; 3, Jimmy Duncan.

Girls, 10 and under—1, M. Todd; 2, D. Salinger; 3, L. Tom.

Boys, 10 and under—1, L. Roth; 2, Basil Bond; 3, Geoffrey Smith.

Girls, 11 and under—1, M. Todd; 2, E. Currell; 3, Irene Bush.

Boys, 11 and under—1, H. Thompson; 2, Elwyn Cross; 3, L. Roth.

Girls, 12 and under—1, Irene Bush; 2, Betty Duncan; 3, I. Currell.

Boys, 12 and under—1, H. Thompson; 2, L. Roth; 3, Maurice Soames.

Girls, 14 and under—1, A. Alexander; 2, Olive Dilworth; 3, B. Craig.

Boys, 14 and under—1, Doug. Todd; 2, J. Walker; 3, A. Martin.

Girls, 16 and under—No entry.

Boys, 16 and under—1, Doug. Todd; 2, Geo. Flintoft; 3, A. Martin.

Slow bicycle race—1, Geo. Flintoft; 2, D. Scott.

Pony race—1, L. Minchin; 2, J. Bach.

Girls' high jump—1, L. White (4 ft.); 2, B. Craig; 3, M. Poole.

Boys' high jump—1, A. Towgood (4 ft. 9 1/2 in.); 2, D. Todd.

Baseball trip open—1, F. Kitsch, Rutland (276 ft. 2 ins.); 2, Griffiths, Oyama (268 ft.).

Three Games In Afternoon

The afternoon was fully taken up with three games, baseball, football, and basketball. Kelowna vs. Oyama, Rutland vs. Kelowna, and Ramblers vs. Oyama.

Rutland Wins From Young Hornets

The first game was a good game of baseball, not so one-sided as the score might indicate, as the losers several times threatened to score but failed in the pinch. Thornton hurled for Rutland, pitching better as he went along, striking out two of the batters in the last frame. Chaplin started in the first inning for the Young Hornets, but was relieved in the middle of the third and replaced by Dalton. Rutland garnered 4 runs off Chaplin and 3 off Dalton.

The game was marred by two unfortunate incidents. In the third inning, the umpire, Doctor Wright, got hit by a pitched ball and was compelled to turn the game over to Bert Johnston after valiantly attempting to carry on. In the fourth, an unfortunate accident occurred when Dalton protested a ruling of Johnston, and a long and unseemly wrangle ensued which did not add to the general enjoyment of the day. We understand the Hornets manager will protest the game, though the play involved in no way affected the outcome of the game. Following is the box score and summary:

Young Hornets AB. H. R. E.
Cook, 3b 4 1 0 1
Neid, c 4 1 0 1
Bury, 2b 4 0 0 0
Johnston, 1b 3 1 0 1
Dalton, ss 3 1 0 1
Flintoft, cf 3 0 0 0
Griffith, cf 3 0 0 0
Poole, lf 3 0 0 0
Chaplin, p, ss 3 0 0 0

31 5 1 2

CROP AND WEATHER CONDITIONS IN OKANAGAN

Frost Damage More Serious To Plants Than Tree Fruits

(From Report of Vernon Office, Horticultural Branch, Department of Agriculture, May 31, 1930.)

Kelowna, May 28th

During the last two weeks the weather has been cold and not favourable to rapid growth. On the morning of May 26th there was damaging frost. Reports indicate that about 20 per cent of the tomato acreage was damaged. Most of this will be replanted, and the loss is not as great as at first indicated. Pears and apples and other fruits were damaged again in areas that were hit with the frost during blossom time. These two frosts will reduce the tonnage of both apples and pears. The percentage of apples injured is only slight, but pear damage is more extensive, estimated at between 30 and 35 per cent. Cherries have set well, are sizing rapidly and indicate an increase over the production of last year.

The acreage in vegetables indicates a drop in onions, increase in cucumbers, beans and tomatoes, and there is also a slight increase in potatoes.

Wire worms, maggots and cutworms are taking their usual toll of field crops. Irrigated field crops are looking well, but non-irrigated crops are in need of rain.

Okanagan, General, May 30th

During the last two weeks the weather has been cold and showery. A frost from one to six degrees occurred on the morning of May 26th in many sections and did considerable damage to tomatoes, potatoes and other tender plants. As far as tree fruits are concerned, no apparent injury resulted but it may have an effect on the ultimate set. Most of the tomato acreage destroyed will be re-set, provided plants are obtainable. There is quite a scarcity of plants in some sections.

The water situation is still very problematical. The light rains and cool weather have been very beneficial but much will depend on the extent of the June rains as to how well certain districts will come through. Every effort is being put forward in all districts to conserve all moisture possible and make the best of the available water supply.

Apples indicate a good crop, although the size of set does not correspond to the fullness of the bloom. Pears also bloomed heavily but the cool weather and the light frosts have affected them so that the production will be reduced. Cherries are not setting as well as would be liked and indications are for a heavy drop. Apricots are a light crop, peaches a fair crop. Vegetable crops have come along well during the cool weather. The increased acreage in tomatoes, although somewhat reduced by the frost, will be well maintained. The crop will be set back and the yields affected by the check to the early plantings. Early potatoes received a slight check from the frost of the 26th. The late varieties in most instances were not up, so that no injury occurred.

LONDON, June 5.—Premier Ramsay MacDonald informed the House of Commons today that the Government had decided against construction of the proposed English Channel tunnel.

ALLEGED SWEEP WINNERS GET RUDE SURPRISE

BARNSTAPLE, England, June 5.—Several people of this town got a rude shock today when doubt was thrown upon the correctness of reports that they had won a good-sized fortune from the Calcutta Sweepstakes through the victory of Blenheim in the Derby. What was stated to be an official list, published today, failed to reveal the ticket held by Percy Hogg, Southern Railway engineer, and five other railwaymen and one street sweeper, as drawing one of the Blenheim first prizes. Hogg and his friends insist that they were informed of their good fortune by reputable banking authorities.

CHANGES IN BRITISH LABOUR ADMINISTRATION

LONDON, June 5.—Vernon Hartshorn, Postmaster General in the Labour cabinet of 1924 has accepted an invitation to become Lord Privy Seal, the post vacated by J. H. Thomas to become Secretary for the Dominions. Dr. Christopher Addison is also a new member of the administration, succeeding as Minister of Agriculture Noel Buxton, recently created a peer.

FARMERS' PICNIC AT SUMMERLAND

Over Three Thousand Visit Experimental Station On King's Birthday

The annual Farmers' Picnic at the Dominion Experimental Station, Summerland, on the King's Birthday, is an event that becomes increasingly popular each year. Although lowering cloud masses to the south and west held threat of showers during the day, which fortunately did not materialize save for a few scattered drops, the sun shone with genial warmth most of the time, and the people of the North and South Okanagan and the Similkameen mustered in strength, the attendance by actual count numbering close to 3,200.

The Kelowna-Westbank ferry ran a continuous service from 8 a.m. until noon, being loaded to its capacity of some six men each nearly every trip, and a continuous service was also operated in the evening to accommodate those returning north. Parked in several large blocks at the Experimental Station, the hundreds of cars formed an interesting and impressive sight, testifying that the people of the Okanagan are not broke, even if at times they are somewhat bent financially.

The numerous features of the day's programme included a half-hour address by Premier Tolmie upon matters pertaining to the welfare of the agricultural industry, which received an attentive and appreciative hearing. The annual Parish Show of the Summerland Jersey Club drew a large number of keenly interested spectators, the judging being carried on in public in a fenced-off show ring. Visiting members of the B. C. Jersey Breeders' Association aided in the success of the show.

Plenty of amusement was provided, with sports for the children in the morning, golf on a miniature course on one of the spacious lawns, a nail driving contest for ladies, a baseball tournament, with teams from Oliver, Peachland, Penticton and Summerland competing, and the good old game of pitching horseshoes, which proved very popular. There were also some sideshow features of an amusing nature, and the Summerland Women's Institute operated stands where various refreshments of seasonal nature could be obtained.

Owing to the season being unusually cool and rather backward, the flower gardens of the Station were not seen at their best, but there were many beautiful blooms, which were much admired.

The chief drawback to a visit to the Experimental Station is its inaccessibility. There should be some means of direct approach from West Summerland, so that the long descent to old Summerland, on the lakeshore, and the equally long and tortuous climb up the Station road from its junction with the main road to Penticton, could be avoided. It is about five miles from West Summerland to the Station via Summerland and only a little over a mile as the crow flies.

ACTIVE DEMAND FOR SUMAS LANDS

VICTORIA, June 5.—Out of 6,700 acres of Sumas Reclaimed land offered for sale by the Government, 5,600 acres has already been sold.

VERNON GIRL WINS TORONTO FELLOWSHIP

TORONTO, June 5.—Agatha Chapman, of Vernon, has won a \$1,500 fellowship at the University of Toronto.

VANCOUVER CONSERVATIVES TO NOMINATE NEXT WEEK

VANCOUVER, June 5.—Local Conservatives have arranged to name their Dominion election candidates next week.

SCOTTISH FOOTBALLERS SHUT OUT KITCHENER

KITCHENER, Ont., June 5.—The touring Scottish soccer team from Kilmarnock overwhelmed the local soccerites here yesterday by 7 goals to 0.

GRAF ZEPPELIN PASSES OVER SPANISH CITY

SEVILLE, Spain, June 5.—The Graf Zeppelin arrived at Seville today and flew over the city.

ENGLISH MISSIONARY MURDERED IN CHINA

SHANGHAI, June 5.—The murder of an English missionary, Dr. Clifford Stubbs, of the Society of Friends, was reported today from Cheng-tu-fu, Szechwan. He was riding in a rickshaw when he was stabbed in the back and died later in hospital. Dr. Stubbs was a native of Newcastle-on-Tyne and had been in China since 1913. His assailant was described by the police as a Communist from Chung King.

NEW TITLE FOR DARING AMY JOHNSON

SYDNEY, Australia, June 5.—Amy Johnson was acclaimed today as the "Valkyrie of the Air" at a dinner given her by eleven hundred women admirers of her flight from England to Australia.

NEW MODERATOR OF PRESBYTERIAN CHURCH

HAMILTON, Ont., June 5.—Rev. Dr. Frank Baird, of Picton, N.S., was elected last night as Moderator of the General Assembly of the Presbyterian Church in Canada.

FINE FINISH IN BICYCLE ROAD RACE

Leaders In "A" Class Complete 35-Mile Grind Only Three Seconds Apart

Between lines of interested spectators, the two leading riders in the first annual Kelowna-Vernon bicycle road race crossed the finish line after a thirty-five mile grind with but three seconds of lapse time between them, as close a finish as could well be imagined. Lawrence Evans, of Oyama, led the way after trailing Arthur Clarke, of East Kelowna, to within a mile of the finish. Clarke and Evans were riding even at Oyama, but the former pulled away along the lakeshore to gain a fifty-yard lead by the time he reached Vinfield. Getting into the hardest going of the race, he had forged even further ahead at Reid's Corner and had out a full half-mile between himself and Evans. The gap remained the same until the Rutland road intersection was passed and then Evans began to close in, the gap became narrower and narrower and just before the two riders reached Simonin's Garage it closed entirely as they went into the final sprint. It was a game fight for the leadership that was only decided on the final straightaway down Bonnard Avenue to the finish in front of the Post Office building. It was indeed a splendid finish, a brilliant win and a game loss, the two riders well deserving the cheers of the crowd.

Both boys finished in good condition, after a heavy trip facing head winds all along the route, and the time of two hours, twenty-one minutes and thirty-three seconds for the thirty-five miles of pedalling through the, at times, near gale, is a creditable performance, especially since the roads were in none too good a condition after the heavy rains of the previous two days.

It was Oyama's big day, for twenty-two minutes later H. Thompson, leading the "B" class riders, hove into sight and pulled over the mark just three minutes ahead of Ralph Bean, of Kelowna. A. Schmidt and Joe Polecheck, of Vernon, came in close together with Polecheck in the lead and third man in "B" class while Schmidt took fourth in "A" class.

non, an "A" classman, came in at number seven, followed by Bernard Kelowna, "A" class, and H. Nuyens, "A" man from Vernon.

The crowd had another thrill when the two remaining riders in "C" class, or bantamweight division, came in strong and came in fast, with Bert Longley one minute ahead of Orville Watson. These two 12-year-olds made the long trip in three hours, one minute and twenty-three seconds, and they were not the last riders over the line, despite their size and years. They received a good hand from the crowd.

Riders in order of finish and time of first and second place men in each class: 1, L. Evans, Oyama, "A" class, 2:21:33; 2, A. Clarke, Kelowna, "A" class, 2:21:36; 3, H. Thompson, Oyama, "B" class, 2:43:37; 4, R. Bean, Kelowna, "B" class, 2:44:35; 5, Joe Polecheck, Vernon, "B" class, 6, A. Schmidt, Vernon, "A" class; 7, Dick Allen, Vernon, "A" class; 8, H. Bernau, Kelowna, "A" class; 9, H. Nuyens, Vernon, "A" class; 10, B. Longley, Kelowna, "C" class, 3:12:33; 11, O. Watson, Kelowna, "C" class, 3:21:10; 12, A. Viel, Vernon, "B" class. Sixteen started.

Local bicycle dealers, who, in co-operation with Vernon dealers, promoted the race, which will be an annual event, are desirous of thanking the many citizens who gave their time and efforts to make the race a success. The co-operation of the Provincial Police, who patrolled the highway, the work of the Vernon City Police in having the starting point clear, and particularly the efforts of the Kelowna City police officers in keeping the crowd back and the finish as clear as possible, went a long way toward making the race a real success. Jud Ribelin, riding patrol, and the services of Mr. Tucker and others, who followed the riders, gave great assistance, while the sportsmanlike action of the management of the Travelers Cafe in serving refreshments to the competitors is also acknowledged with thanks. Timekeepers, Messrs. C. J. Frederickson and J. Logic, as well as those who aided in the transportation of riders and their machines, rendered invaluable help during the day.

Following the race, the various trophies and prizes were presented by Mayor Rattenbury at Campbell & Lewis' store. His Worship, during the presentation, remarking that he was indeed pleased to hand the awards to boys and young men in such obviously excellent physical condition. The prizes were as follows: C.C.M. Trophy Cup and C.C.M. Special Roadster Model bicycle, L. Evans; generator lamp, A. Clarke; Delta lamp, R. Schmidt. Dealers Cup, Class "B", H. Thompson; generator lamp, R. Bean; Delta lamp, J. Polecheck. Dealers Cup, Class "C", B. Longley; generator lamp, O. Watson. Following the presentation, the winning riders were photographed and the winner of the handsome C.C.M. Cup was made the target of many amateur lenses before he was allowed to leave the centre of the stage.

Experience is about the only thing in this world you cannot buy on the easy-payment plan.

ANNOUNCEMENT

**ARNELL'S BEAUTY SALON—PHONE 269
PENTICTON, B. C.**

MRS. ARNELL has just returned from Chicago, where she attended the International Hairdressers' Convention. She has the distinction of being the only Canadian shop owner and hairdresser to attend this convention. While there she demonstrated a new method of Permanent Waving, also at the Nu-Jene Parlours of Minneapolis and Winnipeg.

Our complete knowledge and understanding of every type and texture of hair enables us to give you just the right type of Permanent Wave. Consultation and Test Curl Free. Every Wave Guaranteed. Four expert operators at your service, including a Chiropodist and Foot Specialist. 43-1c

EVERYBODY KNOWS

that Logging and Lumbering is British Columbia's major industry, and is likely to be for some years to come; but not everybody realizes the increasing importance of our forests to the world at large, as forests elsewhere become denuded. We still have 360,000,000,000 board-ft. of merchantable timber -- but we have none to burn.

PREVENT FOREST FIRES—YOU CAN HELP!

BRITISH COLUMBIA FOREST SERVICE

"Where is the modern woman going?" asks an analyst. That is what puzzled motorists behind her want to know when she apparently runs through all her road signals for practice.

The Calgary Herald says that the chief objection to the school of experience is that it thinks up a new course every time you graduate.

BOY SCOUT COLUMN

1st Kelowna Troop
Troop First! Self Last!

Edited by "Scribe".

June 4th, 1930.
Orders for week ending June 12th, 1930:

Duties: Orderly Patrol for week. Beavers; next for duty, Wolves.

There was no report from the Cougars on Monday last, who therefore lose 5 points. The Patrol Competition stands the same as given out in our last column with the Wolves still holding the lead.

Patrols are particularly asked to hurry up and make their Concert returns. So far there has not been one Patrol to hand in complete returns. There will in all events be marks awarded for the first Patrol to hand in complete returns as well as marks deducted from Patrols who take undue time to hand in their returns. As soon as all returns are made it will be possible for us to announce the winners in selling the most tickets.

We have received word from Executive Commissioner W. Solway that it will be possible to have a Leader's Training Course at Kelowna this year. This would be held in the fall, some time in September or early October. At the present time we have received no details but they will be given out at a later date.

GUILD OF HEALTH
Scripture Study for all interested in the subject of Spiritual Healing. Acts 13: 1-23. Heb. 10: 1-22. John 5: 24-27. Matt. 1: 1-11. Acts 2: 26-28. Matt. 12: 46-50. Mark 3: 28-35.

Prayer is the power that vanquishes the power of evil, prayer in the Name of Jesus. That Name is the Name above all others. Just let the Holy Spirit work within you. It is He alone who can heal, and as you surrender mind

FERRY TALES

Atlas, with the world on his back, carried no heavier load than the man from Westbank as he stepped aboard the ferry on Saturday afternoon, en route to Kelowna. The commuter, usually brisk, bright and alert, was the picture of dejection. His expression resembled that of a man who had just been told that the inheritance he was to have received had been donated to charity instead.

Strangest of all, he had no wise crack ready with which to take the wind out of the sails of Old Bill, the first passenger he encountered. Old Bill braced himself for some such remark and was obviously disappointed when it was not forthcoming. From under shaggy eyebrows, he looked at the man from Westbank and growled.

"Wal, y' don't seem very perky 'd'ay, young feller," he observed. "No fruit grower ever has 'casion t' make his fruit look like he'd dreamt he wuz a fruit shipper and woke up t' find he wuz only a grower. What's wrong, laddie?"

The man from Westbank continued to look sour. "Nothing you'd understand," he replied with little enthusiasm.

"Wal, you've criticized my eddication afore, but my understanding o' human emotion ain't affected none."

"You'd help a lot by minding your own business," retorted the man from Westbank with some show of feeling.

"Snoozy, eh? Wal, I'll move on, let y' enjoy yourself with yer own sassy, which is painful enough."

Old Bill, injured, turned his back and picked up one big leather "dog" after another to move away. The man from Westbank called, and he turned.

"Come back here, you ornery son of a gun," demanded the commuter. "The trouble is twins. But you should be a marrier man to understand all that means."

Old Bill trudged back. "Feller," he declared, "Y' don't hev t' be hung t' know et's painful. So you're th' father o' twins, y' young whippersnapper y'."

The old commuter's hand, as wide as a slab of bacon, fell on the shoulders of the man from Westbank, jarring his back teeth. "Wal, wal, wal. Heppy days, man, heppy days!"

"Cat the comedy, you old idiot," growled the younger commuter. "You'd see nothing funny in it if you were in my shoes."

But Old Bill continued to beam. "Twins is jest one o' nature's jokes, feller, an' y' might as well grin and bear it 's look like somethin' the's been out in th' rain all night. Say, ef I hed twins I'd go right out 'n celebrate."

"You would—instead of going out to work?"

"Work? I thought you wuz a 'rawncher'."

"Think again, if the exercise is not too tiring."

Old Bill scratched his head. "What are you goin' t' name th' twins?" he asked.

"I've thought of Profit and Loss, but the wife might object."

"Got any kids named Henry er Hiram?"

The man from Westbank glared. "Say, do you think I'm running an orphanage or something?"

"Wal, ef you hav any more twins, accordin' t' th' way you look now they'll be orphans as far as their father's concerned. Henry 'n Hiram, are fast rate names fer twins."

"Not for my recent acquisitions."

"Wal, why not?"

"In the first place, girls are not usually called Henry or Hiram."

Old Bill reddened. "You didn't say they wuz girls," he said.

"And I didn't say they weren't."

Old Bill cut off a huge chew of tobacco from a black plug.

"Ef they're gals, you'll hev t' call 'em Faith an' Hope," he declared.

"Why?"

"Wal, one will need a lot o' faith when it looks at its father, an' th' other will hev t' hope he's not sech a dummer fool es he looks. Remember, feller, th' twins, 're not responsible fer you—th' shoe is on th' tother foot."

"Go to the devil," growled the man from Westbank.

Old Bill spat. "I don't like your choice o' company," he retorted.

The boat hit the dock and the two commuters filed ashore. The man from Westbank grasped Bill by the arm.

"Believe me, you old reprobate," he shouted joyously, "they're a great pair of kids."

Old Bill halted in his tracks and, open-mouthed, watched his companion throw back his shoulders and march up the street whistling.

"Well, I'll be damned!" he ejaculated with such fervour that he almost swallowed his tobacco.

Another voyage was over.

and will and body and all else to our blessed Lord, giving yourself wholly to Him, you will find that He gives Himself wholly to you, and in the power of His might you will be able to overcome all the power of the enemy.

"Behold I give you power over all the power of the enemy, and nothing shall in anywise hurt you." Thank Him with your whole heart and you will find it true.

VERNON IRRIGATION DISTRICT

NOTICE TO CONTRACTORS

Sealed tenders, marked on the outside, "Tenders for the construction of Haddo Dam," will be received by the Vernon Irrigation District up to and including Friday, June 13th, at 5 o'clock p.m., at the office of the district, Dewdney Street, Vernon, B. C.

Plans and specifications may be obtained upon application.

Each tender must be accompanied by a certified cheque upon a Canadian Chartered Bank in favour of the Vernon Irrigation District for the sum of \$3,000, which will be returned in case the tender is unsuccessful.

The lowest or any tender not necessarily accepted.

VERNON IRRIGATION DISTRICT

HAMILTON LANG,
Secretary to the Trustees.

TYPHOID CARRIERS

(By Dr. G. A. Ootmar, City and District Medical Health Officer)

A friend of mine asked me one day recently, "why are you looking for typhoid carriers here in Kelowna while in Vancouver, for example, nobody seems to bother?"

The answer was not easily given. First, I had to tell him that there are very few cases of typhoid in Vancouver, so few that, when our cultures were getting too weak and we asked for some kind of typhoid germs, Vancouver could not help us as they had no cases. Few cases of typhoid means—few carriers. It is one of the latest discoveries that nearly four per cent of the people who have had typhoid become carriers, which means that they are excreting permanently or temporarily typhoid germs.

In Kelowna nearly every year we have typhoid. The patients were not always in bed—this was the fact with the severe cases but beyond these there were perhaps twice or three times more cases of typhoid than were known. For example, there was a case of typhoid last August in the district, and soon we found out that the water was contaminated with typhoid germs, but how it came to be contaminated remained a problem. The spread of the disease was stopped short by ordering the water to be boiled or chlorinated, but what was the reason of the contamination and why it did not show any contamination six weeks afterwards was not solved until—in November there came to the Hospital a young man who had not felt well for a long time. He had worked all summer, but now it came to be contaminated remained a problem. The spread of the disease was stopped short by ordering the water to be boiled or chlorinated, but what was the reason of the contamination and why it did not show any contamination six weeks afterwards was not solved until—in November there came to the Hospital a young man who had not felt well for a long time. GLENMORE

At the United Service in the Ben-voulin Church on Sunday afternoon, a very representative number from Glenmore joined with Rutland and Ben-voulin. This union of the three congregations under the charge of the Rev. A. McMillan promises to become an annual event. It is a good movement as it brings the members in closer touch with each other.

A most enjoyable time was spent by a number of Glenmore old-timers on Friday afternoon, at the home of Mrs. T. M. Ryall. They were invited to meet Mrs. J. Ritchie, now of Langford Station, Vancouver Island, at present a visitor here. A few were regretfully absent through indisposition and missed the happy time spent together, much of it in reminiscences.

Mrs. McMillan has extended an invitation to the Community Guild, to hold their meeting of Tuesday next at the Manse, Rutland.

A preliminary meeting was held on Monday evening to arrange for the carrying out of a suggestion, that members of the three congregations should hold a united picnic on July 1st. Final decisions will be forthcoming soon, but the place has been selected and July is the suggested date.

The annual Athletic Dance was held on Thursday last in the Glenmore Packing House, which was very tastefully decorated. A very nice crowd at-

tended, but was slightly smaller than the previous year. The Kelownians' Orchestra supplied their usual peppy dance numbers.

Owing to the ladies doing a bigger share of the catering, the expenses were reduced and the returns will equal previous years.

The Athletic Club realize the work done and would like their helpers to know how very much they appreciate the willing help so unstintingly given.

Mr. and Mrs. David Addy, of Rocanville, Sask., are visiting their uncle and aunt, Mr. and Mrs. Harden. They are planning to make their home in Kelowna district.

Mr. and Mrs. Andrew Ritchie and family have taken up their residence in Pentiction, where Mr. Ritchie has been appointed Assistant Manager of the Pentiction Co-operative.

Mrs. J. O. Noyes left on Wednesday afternoon for her home in Naramata.

Mr. and Mrs. P. J. LeRoy, who had been visiting at the home of Mrs. LeRoy's sister, Mrs. W. J. Rankin, left for their home in Olympia, Washington, on Wednesday.

A programme with a good deal of variety has been lined up by the Pentiction Turf Club for the July 1st celebration. Horse races, foot races, horse-shoe throwing and baseball are included in the list of events to be staged on the Pentiction Recreation Grounds on Dominion Day.

**OKANAGAN LAKE
YIELDS BIG TROUT****Twenty-One Pounder Of Kamloops Variety Captured Last Week**

Possibly the largest fish taken out of Okanagan Lake in several years was captured last week by W. J. McInnes, of Vancouver, who pulled in a 21-pound Kamloops beauty while fishing in Ravener's Bay. Trolling deep with a No. 6 Pfleger Imperial spoon, the Coast angler caught six nice trout in all. The king of the basket was on display at Spurrier's for several days, attracting considerable attention.

While reports of the efforts of anglers over the holiday are not complete, week-end activities on the Okanagan indicate that, at the present time, the big lake is the most satisfactory of all fishing grounds! Roadways to the summit lakes are not in very good condition, which, coupled with the cold weather experienced in the hills of late, has prompted local sportsmen to confine their endeavours to the fabled (?) Ogoogo's domain.

Paul Rouhal, with sixteen speckled denizens to his credit, was high man for the past week. He caught them in Manhattan Bay, where he fished for about four hours in the forenoon. Charlie DeMara and Bert Johnston had good luck on Friday at the mouth of Mill Creek, robbing the lake of some ten trout. Vic Fowler and Tom Jones had fair luck also, the largest of their catch weighing eight pounds.

W. Hayes, accompanied by Misses E. and L. Thompson, circled the lake off Clarence's at Horse Creek in the

rain, their reward for a damp experience amounting to twenty pounds of fish. Don Lucas and Freddie Burr, going over the grounds where the big fellow was caught by the Vancouver man, got a total basket of twenty-five pounds on Friday.

Anos McDougall, fishing in the northern end of the lake over the week-end, caught four, the largest being fifteen pounds. Harold Ryan, dangling his lure near the Aquatic Pavilion on Sunday, captured a 12-pound trout.

While the weather has not been suitable for fly fishing at Chute Lake, Hugh Kennedy and Joe Spurrier, who trekked to the summit pond on the King's Birthday, got twelve beauties on the fly. Norman DeHart and Jim Kincaid had fair luck at Chute recently.

Identified

The bank teller, in a snippy way, said: "I don't know you, madam." The woman was red-headed. She said: "Oh, yes, you do. I don't need anyone to identify me. I'm the red-headed 'hen' next door to you whose 'imps of boys' are always running across your garden. When you started to town this morning, your wife said, 'Now Henry, if you want a dinner fit to eat this evening, you'll have to leave me a little money. I can't keep this house on Christian Science.'" "Here is your money," said the paying teller very faintly.

The trouble with some drivers is that they are not superstitious—they don't believe in taking notice of signs.

**COLOURFUL EPIC OF
THE MISSISSIPPI****"Show Boat" At Empress Theatre This Week**

One of the most moving romances ever told on the screen will be offered to patrons of the Empress Theatre when Universal's \$1,000,000 film, "Show Boat," begins its run today, continuing until Saturday night. This colourful epic of the Mississippi Valley and of Chicago in the last generation, embodying the glamorous love story of Magnolia, the young show boat girl, played by Laura La Plante, and Ravenal, the romantic young gambler, played by Joseph Schildkraut, is based upon the internationally famous novel of the same name by Edna Ferber.

"Dynamite"

A marriage seven hours before a man is to hang for murder and the buying of a husband as startling plot features of "Dynamite," Cecil B. De Mille's first talking picture, which opens at the Empress on Monday for a three-day run. "Dynamite" is said to be a story of the old-time De Mille fair—with beautiful girls, an interesting "wild party" and even a glass bath tub as atmospheric background.

The principals are Conrad Nagel, Kay Johnson, Charles Bickford and Julia Faye.

No English king or queen has refused assent to a bill since the time of Queen Anne, who died in 1714.

**"80,000 Miles of flight"
RECORDS GRAF ZEPPELIN'S LOG
and every single mile flown with VEEDOL**

Six times across the Atlantic . . . Once across the Pacific . . . Across five continents . . . Once around the world . . . Over 1,500 passengers and many tons of freight safely transported • This in brief is the wonderful flight record of the Graf Zeppelin after having made a successful trip from Europe to Brazil and thence to the United States • On each voyage of the Graf Zeppelin, Veedol Motor Oil played a vital part in keeping the five powerful Maybach engines in trim. Both Dr. Hugo Eckener, Commander of the ship, and his engineers, have time and again paid high tribute to Veedol's excellent performance. The ability of this fine lubricant to stand up under the most critical operating conditions puts Veedol in a class by itself • The unfailing protection that Veedol gives your car, would make the cost of this oil cheap even at double its price. The smooth and cool operation which is assured when using Veedol, will greatly increase your pleasure in driving • Have the crankcase of your car filled with Veedol today!

Stop for oil where you see this sign.

A vacation link with your home.

You're away for your holidays. Enjoying yourself, to be sure, but there are distractions that the best of vacations cannot remove from your mind. You're a little worried, perhaps—wondering how things are at home.

It would take too long to exchange letters, and home is many, many miles away. But it's not so far, after all, if there's a telephone handy.

Why not add to the happiness of your holidays with a long-distance telephone call to your home?

THE KELOWNA COURIER
AND
Okanagan Orchardist.
Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES
(Strictly in Advance)
To any address in the British Empire, \$2.50 per year. To the United States and other foreign countries, \$3.00 per year.

The COURIER does not necessarily endorse the sentiments of any contributor article. To ensure acceptance, all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred. Amateur poetry is not published. Letters to the editor will not be accepted for publication over a "nom de plume"; the writer's correct name must be appended.

Contributed matter received after Tuesday night will not be published until the following week.

ADVERTISING RATES
Contract advertisers will please note that their contract calls for delivery of all changes of advertisement to The Courier Office by Monday night. This rule is in the mutual interest of patrons and publisher, to avoid confusion on Wednesday and Thursday and consequent night work, and to facilitate publication of the Courier on the following day. Contract advertisements will be accepted on Tuesday as an accommodation to an advertiser confronted with an emergency, but on no account on Wednesday for the following day's issue.

Transient and Contract Advertisements—Rates quoted on application.

Legal and Municipal Advertising—First insertion, 15 cents per line, each subsequent insertion, 10 cents per line.

Classified Advertisements—Such as For Sale, Lost, Found, Wanted, etc., under the heading "Want Ads." First insertion, 15 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge per week, 50 cents. Count five words to line.

Each initial and group of not more than five figures counts as one word.

If so desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For this service, add 10 cents to cover postage or filing.

THURSDAY, JUNE 5th, 1930
ANNUAL MEETING OF GROWERS' EXCHANGE
(Continued from page 1)

Following some discussion with regard to cold storage facilities, Mr. Spall brought up the matter of sickness and accident insurance for employees.

The chairman explained that permanent employees were covered, coverage to take effect from the eighth day, up until which time they were entitled to full wages.

The chairman said that a request had been made last year to procure lime sulphur in twenty-five-gallon barrels. So far, he did not know whether or not it could be done. Referring to fire insurance on boxes, he said that when the boxes were delivered into the grower's orchard, the grower was responsible for them. If he wished, he could take out a policy to cover them. Mr. Spall suggested that a letter to that effect be sent out to members.

Reports And Financial Statement Adopted
On motion by Messrs. Aitkens and T. G. S. Chambers, the Directors' and Auditor's reports and financial statement were adopted and carried.

Election Of Auditor
Election of Auditor for 1930 was the next business on the agenda, two solutions—one naming Mr. Jackson, the other proposing Helliwell & MacLachlan, C.A., of Vancouver—being presented. While Mr. Jackson's work during his many years as Auditor had been most satisfactory, a number of growers were of the opinion that if the services of Helliwell & MacLachlan, Auditors for Vernon and Penticton, were secured, Kelowna would benefit by their experience. Mr. Jackson was asked if he could work in conjunction with the Vancouver firm, to which he replied that he did not think it possible. A vote by ballot was taken and Messrs. Helliwell & MacLachlan were declared elected as Auditors for 1930.

Gain In Acreage
Asked what acreage had been gained in Kelowna for the coming season, the chairman replied that the gain amounted to some 274 acres of first-class fruit.

Mr. Lyons moved a vote of thanks to the chairman for the able manner in which he had conducted the meeting, which was seconded by the clapping of hands.

President Chambers Reviews Sales
Mr. E. J. Chambers was next called upon to address the meeting. In opening, he congratulated them on the free and frank discussions in which they had participated. Since their interim meeting, which he had attended, the balance of the pools had been closed. Kelowna, especially the exports, had yielded good returns, being only four cents under Delicious. Export Wine-sap had been disappointing, as had other pools of off varieties. The main varieties, Wealthy, McIntosh and Delicious, had fared well in South Africa and New York, the latter market having been a great help all through. Most of the Jonathan went to Great Britain.

Giving comparative figures for the past two years, Mr. Chambers said that exports to Great Britain in 1928 totalled 690 cars, while in 1929 some 414 cars were exported. Three cars of Newtown were shipped to France. Four cars of apples went to Egypt, forty cars to South Africa. In 1928, eleven cars had been shipped to China, five and a half in 1929. American competition was very keen in China. In 1929, thirty-five cars had been shipped to the Scandinavian countries, a Jonathan market. They had experienced trouble with breakdown, however, as Fancy and Extra Fancy were demanded on that market. During the past year, despite a heavy crop in the United States, 165 cars had been shipped to our southern neighbors. 133 cars in 1928. The New Zealand market consumed twenty-three cars in 1928, forty-two and a half cars in the past year, including onions.

Export sales had been increased, stated Mr. Chambers, and produce generally had been well received on the export markets. He regretted that the annual report of the Associated Growers was not available for presentation on that day, but there was not much difference over previous years. They

OBITUARY
Mr. William Frederick Goodwin
Old friends in Kelowna will learn with deep regret of the death of Mr. William Frederick Goodwin, who passed away in the Municipal Hospital at Viking, Alberta, on May 22nd, following an operation for acute appendicitis. Internment took place at Edmonton.

Mr. Goodwin is survived by his wife and two children, resident in Viking.

For several years prior to 1910 Mr. Goodwin was a popular member of the staff of Thomas Lawson, Ltd., and a presentation to him upon the occasion of his departure for Alberta was chronicled a few weeks ago in "Twenty Years Ago." His death while still in the prime of life will be mourned by many who recall his cheerful personality.

had been fortunate all round, all things considered. Sales had totalled over \$3,225,000, a good record for the year. Liabilities were not heavy and assets were in splendid condition, which, he thought, applied to Locals as well. There would be an increase in tonnage this year and there was danger of getting too much. Increases were noted in Kelowna, Oliver and Peachland.

Referring to recent tariff revisions, he felt that they would benefit by them. Cherries would not be affected by revisions. Peaches, plums, prunes, strawberries and raspberries were affected to a certain extent, and a specific duty of \$15 on onions would be a help. Pool charges would be slightly increased, he said. Printed wraps would again be used, as a reduction in price of 33 1/3% had been given by the manufacturers. Every item of expense was included in pool charges and, from a competitive standpoint, the Associated Growers had made a better showing in 1929 than in any previous year's operation. On the average, returns to members were better, as well.

Some \$30,000 had been spent in advertising, continued Mr. Chambers—\$14,000 in newspaper advertising; \$2,625 in advertising abroad; \$4,000 in posters; \$1,191 for the OK film, which will shortly be exhibited in the Old Courthouse; \$2,000 screen advertising; \$3,355; over \$2,000 at exhibitions; and other incidentals.

To properly advertise B. C. fruit and to distribute the burden fairly, all organizations should combine to put on a thorough campaign and to get the most value out of it, thought the President of the Associated Growers.

Most Desirable Apple Varieties
Questions invited, Mr. Aitkens reminded Mr. Chambers that at the interim meeting it had been suggested that he give them a list of desirable varieties to plant.

Capt. Bull said that a letter had been received from Mr. Chambers, in which he gave a list of five varieties—Delicious, Wealthy, Newtown, McIntosh and Rome Beauty.

Mr. Chambers remarked that it was always advisable to plant varieties of apples that have two chances of markets—domestic and export. Location was also a factor, he said.

Funds Assured For Onion Storage
Mr. F. A. Lewis, requested to address the meeting, stated briefly that he would like to be in a position to tell them what final onion prices would be. The last had left New Westminster and he hoped to have returns in a few days. On the whole, fairly low prices were expected. On his recent trip to Ottawa, the Minister of Agriculture had assured him that \$50.00 would go through in the estimates for onion storage facilities either at Vernon or Kelowna.

Outlook For Season
Asked by the chairman to give his opinion on the outlook for the season's market, Mr. Chambers replied that conditions on the prairie were satisfactory, due to the stock collapse and the unsatisfactory wheat situation. This year's wheat crop might turn out all right. Export markets should be good as Nova Scotia and Ontario were down in production this year. There was nothing at the present time to make any one feel pessimistic, although indications might change as time went on. The North American crop, it was estimated, would run from ten to twelve per cent lower than in 1928.

In reply to a question with regard to eastern competition, Mr. Chambers averred the time would never come when eastern growers would distribute largely on the prairie. British Columbia was "getting into" the Ontario market, and the method of packing in Nova Scotia was not generally favoured as a vote box ploy.

Following some further discussion, a vote of thanks to Mr. Chambers was moved by Mr. Atkin, who was particularly pleased with his remarks regarding the outlook on the export market.

The gathering applauded and the meeting adjourned.

At a meeting of the Board of Directors, held on Monday, Capt. Bull was re-elected President, and Mr. Loosemore, Vice-President.

RUTLAND RALLY DAY DRAWS BIG CROWD
(Continued from page 1)

Football Game Won By Kelowna
The football game was hampered by a strong south wind, which gave the teams a big advantage by turns. Lumby securing 2 goals to Kelowna's nil in the first half, with the wind behind them, and in the second half, Kelowna, with the same advantage, scored 3 goals to win the game 3-2. One of Kelowna's goals was secured on a penalty kick which the Lumby goalie (Duke) made a desperate though unsuccessful attempt to stop.

The teams appeared evenly matched and the defence seemed stronger than the attack on both sides. The Kelowna centre half was the star player for the Orchard City eleven.

Oyama Shut Out By Ramblers
The final event of the day, the ball game between Ramblers and Oyama, proved a disappointment. These two teams were tied in second place in the league and last year, at the June 3rd sports, put on a fine game, the score being 1-0. This time, however, the Oyama team seemed dead on their feet and took a 10-0 defeat from their

Rutland Juniors Too Strong For Kelowna Boys
A junior game of baseball was played in the morning between a Rutland school team and a team from Kelowna. A one-sided contest ensued in which the Kelowna boys lost out by 24 runs to 4. The town boys showed lack of practice, the local nine having the edge all the way, due to snappy infield work.

The Dance
The dance in the evening, which rounded out a full day of enjoyment, was attended by a large and jovial crowd who enjoyed time and again the peppy numbers played by the Synco-pators Orchestra. A pleasing ceremony was the presentation, by Hugh McKenzie, on behalf of the Interior Basketball Association, of the "Province" Cup, given for competition in the Senior C division and won this year by the Rutland entry. The basketball boys lined up on the floor for the presentation and were loudly applauded by the spectators.

Dancing was kept up until the wee sma' hours of the morning, the affair being voted the most successful dance staged here for a long time.

The motorist who was injured by an empty bottle from a bus on the highway now knows what an umpire feels like.

A music rack extension for pianos that a Chicago man has invented brings sheet music down level with a child's eyes to prevent eye strain.

The way to be popular is just to make the other fellow believe he is popular with you.

Mexico has abolished capital punishment, which gives its Presidents much encouragement.

When it is finally settled that the thing is impossible, watch some fellow do it.

"Yesterday I was in the company of the one I love the most."
"I'm surprised you don't get tired of being alone so much."

Tourist trade in Penticton commenced much earlier this year than in 1929, according to the B. C. Auto Club register. A visitor this year registered on April 22nd. He was a Vancouver resident and was touring through the province. In 1929 there were no registrations until May 18th, almost a month later.

Local and Personal

Mr. Grote Stirling, M.P., returned yesterday from Ottawa.

Mr. R. F. Minus returned on Saturday from a trip to the Old Country.

Mrs. J. Henniker left on Saturday by Canadian Pacific for the Coast.

Mrs. Miriam Green Ellis, of Winnipeg, is registered at the Royal Anne Hotel.

Miss Beryl Grant, of Vancouver, is a guest at the Willow Inn for a month's holiday.

Mr. Sami Quested returned on Thursday from England, where he had made a stay of nine months.

Mr. John Acland, of the staff of the Canadian Bank of Commerce at Trail, is spending his holidays here.

Mr. and Mrs. J. E. Young and son, of Vancouver, formerly of East Kelowna, are registered at the Royal Anne Hotel.

Mr. and Mrs. W. J. Holmes left on Monday by Canadian National for Ennis, Ontario, where they will spend a visit.

B Squadron, B. C. Dragoons, are holding a series of dances in the Exhibition Building commencing on Saturday, June 20th.

The C.N.R. is constructing an interchange track at Penticton, which will connect that railway with all the Penticton packing houses.

Miss Reba Willits was advised on Monday that she had successfully passed her fifth year examinations in medicine at the University of Toronto.

Material for the construction of a slip at Westbank by the C.N.R., work on which will be started in about two weeks, is now being assembled here.

Mr. and Mrs. R. H. Fortune, of Salmon Arm, were guests of the Royal Anne Hotel early in the week. Mr. Fortune took full advantage of the local golf course during his visit.

Mr. G. Dickson, of the Foreign Freight Department, Canadian National Railway, Vancouver, and Mr. Whitlock, of the Cunard Line, were in town on Tuesday and Wednesday on business.

Premier S. F. Tolmie, accompanied by Mrs. Tolmie and son, Mr. J. W. Tolmie, who attended the annual picnic at Shuswap Lake, the airplane at Rutland, which for the past few days has been busy taking up passengers for ten-minute trips, is piloted by Capt. J. S. Blakeley, of Radium Hot Springs. His mechanic is Mr. L. L. Dunsmore. Both are guests at the Royal Anne Hotel.

Hon. J. W. Jones was advised by wire on Saturday that an order-in-council had been passed making the following grants to irrigation districts in the southern section of the Okanagan: Glenmore Irrigation District, \$5,000; Black Mountain Irrigation District, \$4,700; Westbank Irrigation District, \$11,000; Peachland Irrigation District, \$2,000; Naramata Irrigation District, \$5,500. The sums given for Peachland and Naramata are in addition to grants already received for necessary improvements to systems for the conservation of water.

A session of the Male Minimum Wage Board, of which Messrs. J. D. McEwen, A. Bell and G. H. Cowan are members, was held in the Board of Trade Hall yesterday afternoon for the purpose of conducting an enquiry into the circumstances of employment of licentiates of pharmacy, certified drug clerks and certified drug apprentices, also in regard to the wages paid to janitors, cleaners, watchmen, elevator operators and others engaged in similar occupations, but the proceedings did not last long as no evidence was submitted.

Members of the Kelowna Group, T. H. were guests of the Penticton Group at the Dominion Experimental Station, Summerland, on Sunday last. Due to the kindness of Mr. Hunter, the Superintendent, the big cabin was utilized for the gathering. Members of both groups were accompanied by their wives and luncheon was enjoyed. The impressive ceremony of light was held, followed by a general and enthusiastic discussion of objectives. The Penticton Group although only recently formed, is making good progress. It is hoped to hold a joint dinner in Kelowna some time in September.

Local people in possession of radio sets will have the opportunity of hearing the initial speech of Hon. R. B. Bennett, Conservative leader, in the Dominion election campaign, if they tune in on CKWX, Vancouver, on Monday next, June 9th, at 6.30 a.m. If they prefer to listen to the direct broadcast from Winnipeg, where Mr. Bennett will speak, they should tune in on CKWX at the same hour. Mr. Bennett will also speak at Vancouver on Tuesday, June 17th, when CKWX will again broadcast his address.

Mr. E. D. Johnson, Provincial Deputy Minister of Finance, spent the week-end in Kelowna, a guest of the Royal Anne Hotel. The Deputy Minister is visiting the various government agencies in the Interior.

Parents who have children that will be of school age by the commencement of the fall term are advised to comply with the requirements as to physical examination, for which see the advertisement inserted in this issue by the Board of School Trustees.

As the result of the full course in nursing having been instituted at the Kelowna General Hospital, the first graduation ceremony is scheduled to take place on Friday, June 20th, in the auditorium of the Junior High School, when four graduate nurses will receive their diploma. Dr. R. B. McKee, M.D., Chancellor of the University of British Columbia, will be the principal speaker.

Junior High School students will be on exhibition to the public in the school on Thursday afternoon and evening next, when an entertaining demonstration of Junior High work will be staged. A comprehensive display of various branches of the school work will be given, every item typical of the work being carried on. Refreshments will be served, and the funds will be devoted to school needs.

A surprise was sprung upon Dr. and Mrs. W. J. Knox on Saturday evening, when a large party of friends arrived unexpectedly at their residence on Pender Street and presented them with a magnificent centrepiece and four matching candlesticks in Sheffield plate to mark the twenty-fifth anniversary of their marriage, which fell upon that day. After recovering from the shock, Dr. and Mrs. Knox hospitably entertained their visitors and a pleasant social time was spent.

At the bridge held in the Willow Inn last week in aid of mosquito control in the district, Mrs. H. A. Willis donated a booby prize of a "mosquito," cleverly executed by herself, for which the committee wish to thank her. Thanks are also due Mr. W. B. Bredin for an appropriate verse of which he was the author. Those holding bridge parties in their own homes in aid of the mosquito control fund are reminded that all monies to be donated should be handed in no later than June 15th.

A Moth hydroplane in which Mr. C. H. Taggart, D.L.S., of the Dominion Geographical Survey Department, is doing survey work, visited Kelowna yesterday, leaving in the late afternoon for Vernon and the base of operations at Shuswap Lake. The airplane at Rutland, which for the past few days has been busy taking up passengers for ten-minute trips, is piloted by Capt. J. S. Blakeley, of Radium Hot Springs. His mechanic is Mr. L. L. Dunsmore. Both are guests at the Royal Anne Hotel.

Hon. J. W. Jones was advised by wire on Saturday that an order-in-council had been passed making the following grants to irrigation districts in the southern section of the Okanagan: Glenmore Irrigation District, \$5,000; Black Mountain Irrigation District, \$4,700; Westbank Irrigation District, \$11,000; Peachland Irrigation District, \$2,000; Naramata Irrigation District, \$5,500. The sums given for Peachland and Naramata are in addition to grants already received for necessary improvements to systems for the conservation of water.

A session of the Male Minimum Wage Board, of which Messrs. J. D. McEwen, A. Bell and G. H. Cowan are members, was held in the Board of Trade Hall yesterday afternoon for the purpose of conducting an enquiry into the circumstances of employment of licentiates of pharmacy, certified drug clerks and certified drug apprentices, also in regard to the wages paid to janitors, cleaners, watchmen, elevator operators and others engaged in similar occupations, but the proceedings did not last long as no evidence was submitted.

Think how many will be jobless when there's a machine you can feed the children into and shell out the toys.

The Armstrong Tennis Club opened the season's activities last week. It's easy to furnish the love nest with a "little down."

42-piece Cottage Set (china) at **\$13.75**
English Cups and Saucers, assorted decoration, at **85c**
DINNER WARE in assorted designs. We excel in gifts of all kinds for showers.

FOOD FOR BABIES IN HOT WEATHER

Hot summer weather is very trying on babies and the food question is a serious one every mother must solve correctly if her infant is to avoid ailments common in this period. Breast feeding is obviously best for baby, but it happens in so many cases that this is impractical. Rather than experiment with all sorts of foods, it is wise to use one that is known for its value as an infant food. Eagle Brand Condensed Milk has been used continuously since 1857 and is highly recommended by leading physicians as a safe, pure, easily digested food for bottle-fed babies. It is simply pure milk and pure granulated sugar. Feedings are easily made up according to directions on the can. Eagle Brand is especially satisfactory in difficult feeding cases. Frequently it agrees perfectly with babies who cannot assimilate any other food. Mothers who would appreciate a very helpful booklet on the care and feeding of baby may obtain a copy of "Baby's Welfare" from the Borden Co. Limited, Montreal, free, if they mention this paper when writing.

OKANAGAN MISSION

There will be Sunday School next Sunday, at 10 a.m.

The St. Andrew's branch of the Parish Guild will hold their annual Flower Show on Thursday, June 26th, at Mrs. Haverfield's. Full details as to prizes, classes, etc., will be distributed later, but the Guild Committee wishes to notify those interested that there will be a prize for the best collection of wild flowers for Senior and Junior Grades—one for Grades 5 to 8. The prize will be awarded for the most representative collection, i.e., the one which contains the most varieties of June wild flowers. Marks will not be given for arrangement. Admission to the Flower Show will be free and no fee will be charged for entries to competitors, but a charge will be made for tea and ice cream and cold drinks will also be on sale. Mrs. Lyons has kindly offered a silver cup for the highest number of points won by any competitor. There will also be a stall where some of the ecotone articles made by the Guild during the year will be sold.

Some of us may not have noticed that it was announced in last week's Courier that Mr. Chapman, Principal of the High School, will give an address on Monday, June 9th, in the Junior High School, at 8 p.m., on the "Four Year High School Course." The address will be given under the auspices of the Parent-Teacher Association, and will doubtless be of interest to parents or High School pupils. Possibly some of the Mission parents would like to be present.

Mr. and Mrs. C. Dunlop went on a fishing trip last week to Lake Penanant but the weather was very unfavourable.

Visitors staying at the Eldorado Arms during the week were: Mrs. Martin Griffin, Miss Anne Griffin, Mr. and Mrs. R. J. Gosse, Mrs. Andrew Gosse, Mrs. Andrew Jukes, Miss Laura Jukes, Mr. and Mrs. V. G. Ley, all of Vancouver.

WESTBANK

Miss Twiddy, V.O.N., arrived on Saturday to replace Miss Olive Ings, V.O.N., who resigned.

Mr. Joseph Moffat returned last week from a month's holiday spent in Victoria.

Mr. Archie Murchie, of Glenora, passed away on Monday morning at his home. He had suffered with his heart for some months.

Mr. M. J. dePuyffer returned from his honeymoon and resumed his duties as Manager of the Co-operative Growers on Wednesday. With his usual energy, he has started on the enlargement of the Co-operative packing house, which is to be carried out to the back of the lane. The present excellent storage basement is also being enlarged.

The monthly meeting of the Women's Institute was held in the Community Hall on Tuesday afternoon. It was well attended, thirty-three ladies and children being present.

The Secretary, Mrs. Dave Gellatly, read the essays on "The Early History of Westbank." The first prize was won by Mrs. A. Gellatly and the second by Victor Hitchner.

Miss Ings, V.O.N., Convener of Children's Welfare, was presented with a pair of beautifully hand-made suede gloves, the work of a member of the W. I. at Okanagan Centre, as a farewell present from the Women's Institute. Miss Ings will be greatly indebted. She has done her work faithfully and has been an asset to both the Institute and Westbank.

TWENTY YEARS AGO

(From the files of "The Kelowna Courier")

Thursday, June 2, 1910

"The Kelowna Tobacco Co., Ltd., are very busy filling orders for their fast becoming famous cigars, and now have fourteen cigar-makers employed."

"County Court will be held in Kelowna on Friday, June 24th. This is the first session of Court ever to be held here, and it is understood to be due to the expressed intention of Judge Swanson, of Kamloops, to hold court regularly here in future, as only due recognition of Kelowna's position and importance."

"S. T. Elliott received five McLaughlin-Buick motor cars on Saturday, and to date four have been sold and several of our citizens are now holding the wheel in place of the lines."

"Messrs. DeHart & Harvey have sold, for Messrs. Jas. Harvey, Sen. and Harvey, the townsite 'Oceola,' on Woods Lake, to Mr. Andrews, an American gentleman who has been residing in Honolulu. The store building on the townsite has been sold also, and will be opened by the purchaser as a general merchandise concern. Mr. Andrews will commence operations on the construction of a box factory within a short time."

"Mr. A. N. Eccleston captured two coyotes alive on Victoria Day and shot another while a fourth got away on the Central Okanagan Lands. He made the capture by intercepting them before they had time to reach their burrow. They were exhibited in the store window of T. Lawson, Ltd., the poor little brutes appearing badly scared and unhappy in their strange environment."

"The Mikado" was performed on Friday evening in the Vernon Opera House before a packed house, and passed off successfully and with credit to the reputation made by the Musical & Dramatic Society on Tuesday evening in Kelowna. The large audience was very enthusiastic and gave numerous encores, and it was apparent that the performance was much enjoyed. The Society is very grateful for the manner in which their appearance in Vernon was patronized."

"Work is progressing upon the large extensions to the waterworks system which are being undertaken this year by the City Council. Pipe laying will be finished this week and a start made on back-filling. A number of premises have been connected with the mains, and already many citizens are using the water for household purposes and irrigating, while applications are being received daily for water. It is intended to put on meters for irrigating, and all who use over 4,000 gallons a month will have to pay extra at the rate of 20 cents a thousand gallons. The monthly rate for 4,000 gallons and under will probably be \$1.25, but it has not yet been definitely settled, and it is estimated that 4,000 gallons a month will cover the needs of the average household. Another by-law to raise money will be submitted to the ratepayers inside of a month, to defray the cost of meters, fire hydrants and some additional pipe."

"The best view ever obtained of Halley's comet was on Thursday night, about 10 o'clock, just before the moon rose. The tail of the wanderer was then plainly visible, stretching to all appearances, away to the east far across the sky. But it was not one-tenth the wondrous sight promised the world by astronomers and retailed by the daily papers with almost nauseating repetition. The appearance in 1910 of Halley's comet will be, however, down into history as one of the greatest frosts of the century, and no doubt those of the present generation who will see it return once more about the end of the present century will tell their children's children what a disappointment it was in 1910."

At the annual meeting of the Kelowna W.C.T.U., which was held recently, the following officers were elected for the year: President, Mrs. Ball; Vice-President, Mrs. Harvey; Corresponding Secretary, Mrs. Dolsen; Recording Secretary, Miss August; Treasurer, Mrs. Glenn; Superintendents of Departments—Literature and White Ribbon Bulletin, Mrs. Cox; Work among Lumbermen, Mrs. Glass; Parlour Meetings, Mrs. MoBachern; Press Work, Mrs. Herdman; Flower Mission, Mrs. Ball; Moral Education, Mrs. Ball; Foreign Work, Miss Mawhinney; Juvenile and Sunday School Work, Miss August; Anti-Narcotic, Mrs. Rowcliffe; Medal Contest, Mrs. Jones and Mrs. Dilworth; Fair Work, Mrs. Renwick and Mrs. Ray; Local Option, Mrs. Welsh; Social Committee, Mrs. Glenn; Mrs. Geo. Thompson, Mrs. Curtis and Mrs. Martin; Department of Franchise, Mrs. Fuller.

THE HIGH COST OF CARELESSNESS

Hazardous Fire Conditions Prevail Throughout B.C. Forests

Reports to hand from the Forest Service on the forest fire situation show that hazardous conditions prevail at the moment in almost every part of the Province. Already the number of fires exceeds the total for the same portion of last year, which it will be remembered was distinctly a bad year in that respect.

Three-fourths of our forest fires are due to plain carelessness. Carelessness is always reprehensible, but carelessness with fire is carelessness in its deadliest form.

Public opinion has done a great deal to make carelessness unpopular, and when it brings its weight sufficiently to bear on the man who is careless with fire, our losses from forest fires will by-and-by be negligible.

Isa Lake, in Yellowstone National Park, sends part of its waters to the Atlantic and part to the Pacific at certain seasons.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form, of the Bank's

SEMI-ANNUAL STATEMENT

30th April, 1930

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$ 688,067,754.78
Payable on demand and after notice.	
Notes of the Bank in Circulation	38,473,147.00
Payable on demand.	
Letters of Credit Outstanding	10,941,971.37
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount (x) in "Resources").	
Other Liabilities	8,745,783.97
Items which do not come under the foregoing headings, including \$5,000,000 advances from the Dominion Government under The Finance Act.	
Total Liabilities to the Public	\$ 746,228,657.12

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	76,370,991.11
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$ 822,599,648.23

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 94,421,408.82
Notes of and Cheques on Other Banks	45,507,317.11
Payable in cash on presentation.	
Money on Deposit with Other Banks	15,448,298.39
Available on demand.	
Government & Other Bonds and Debentures	121,661,712.27
Gilt-edge Securities practically all of which mature at early dates.	
Stocks	922,087.90
Railway and Industrial and other stocks at or below market value.	
Call Loans Outside of Canada	68,028,615.57
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing moneys quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	27,460,856.27
Payable on demand and secured by bonds and stocks of greater value than the loans.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$ 373,450,296.33
(equal to 51.03 of all Liabilities to the Public)	
Other Loans	417,998,828.93
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Two properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,930,456.44
Acquired in the course of the Bank's business and in process of being realized upon.	
Customers' Liability Under Letters of Credit	10,941,971.37
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not Included in the Foregoing	3,778,095.16
Making Total Assets of	\$ 822,599,648.23
to meet payment of Liabilities to the Public of	746,228,657.12
leaving an excess of Assets over Liabilities to the Public of	\$ 76,370,991.11

PROFIT and LOSS ACCOUNT

Profits for the half year ending 30th April, 1930	\$3,343,017.87
Dividends paid or payable to Shareholders	\$2,167,586.99
Provision for Taxes Dominion Government	229,979.45
Reservation for Bank Premises	600,000.00
	2,997,566.44
Balance of Profit and Loss Account, October 31st, 1929	\$ 343,451.43
Balance of Profit and Loss carried forward	733,582.31
	\$1,281,033.74

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 112 years the Bank of Montreal has been in the forefront of Canadian Finance.

BANK OF MONTREAL REPORT SHOWS STRENGTH

Rest Account Exceeds By Two Millions Paid-Up Capital Of \$36,000,000

The Bank of Montreal is now forwarding to shareholders a particularly satisfactory statement for the half year to April 30th.

In the face of unusual conditions, the Bank has been able to keep strong in liquid assets and cash and at the same time to show satisfactory profits. In the general statement one of the outstanding features is the increase in current loans in Canada. Both Capital and Rest are at new high levels. The Paid-up Capital stands at \$36,000,000, up from \$34,548,760 a year ago, while the Rest has been increased to \$38,000,000, from \$35,548,760, at which level it is \$2,000,000 above the Paid-up Capital.

It is likely due to the larger capital employed that the Bank has been able to report to shareholders slightly increased profits for the six months, as compared with the corresponding period last year. Profits amounted to \$3,543,017, up from \$3,491,651. There were also received in the six months payments of \$1,459 as premiums on new stock. These amounts, when added to the balance carried forward, brought the total available for distribution up to \$4,330,059. This was appropriated as follows: Dividends and interest on installment payments on new stock, \$2,167,584; amount credited to Rest Account, \$51,459; provision for taxes Dominion Government, \$229,979; reservation for bank premises, \$600,000; leaving the balance of profit and loss to be carried forward at \$1,281,033.

Strong Liquid Position
In the general statement of assets and liabilities, total assets are shown at \$822,599,648, compared with \$915,705,683 a year ago. Of this amount assets are reported at \$373,450,296, equivalent to 51.03 per cent of liabilities to the public. Included in them are cash holdings of \$94,421,408, equal to 12.90 per cent of public liabilities.

At the same time there is a somewhat unexpected increase in current loans and discounts in Canada and these now are reported at \$335,301,194, up from \$314,464,137. While a portion of this increase may be attributed to the wheat situation, it is also known that there is an increased tendency on the part of large customers to avail themselves of banking accommodation.

As was to be expected, with the change in the general credit situation throughout the world, the most important variations are in the call loan department. All loans in Canada are down to \$27,469,856, from \$39,359,779, and call loans in Great Britain and the United States have been reduced to \$68,028,615 from \$139,974,369. At the same time, balances due to banks and banking correspondents elsewhere than in Canada—which to a great extent represented deposits temporarily placed on this side due to higher loan rates—are now down to \$9,660,804 from \$35,597,167.

Fixed deposits are reported at \$688,067,752. Of this amount deposits bearing interest are \$545,856,287 and deposits not bearing interest \$130,418,937.

It is reported that the Famous Players Canadian Corporation have purchased the Empress Theatre building at Penticton and that they will expend some \$20,000 in improvements, new equipment, etc. Talks are to be installed during the month of June. It is understood that Mr. J. C. Berry, manager, intends to move and take up his residence at his Coast home.

Twisting a long threaded bolt in its handle tightens or loosens the strings in a tennis racket invented by a New York man.

Contents of a Large Residence at AUCTION

GLENN AVENUE
Near Vernon Road, for Mr. E. Newby, who is leaving for Victoria.

LAND ACT

Notice of Intention to Apply to Purchase Land

In Osoyoos Land Recording District of British Columbia, and situate near the junction of Joe Rich and Mission Creeks, to the east of Lot 2182.

TAKE NOTICE that I, Palmer Brooks Willits, of Kelowna, B.C., druggist, intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the south-east corner of lot 2182, thence north 40 chains; thence east 10 chains; thence south 40 chains; thence west 10 chains; excepting two acres, more or less, which are reserved for school purposes, and containing thirty-eight acres, more or less.

PALMER BROOKS WILLITS.
Dated 24th May, 1930. 42-9c

WATER NOTICE

Use And Storage

TAKE NOTICE that Glenmore Irrigation District, whose address is Box 763, Kelowna, B.C., will apply for a licence to take and use 3,000 acre-feet per annum and to store 3,000 acre-feet per annum of water out of Mill Creek, also known as Kelowna Creek, which flows south and drains into Okanagan Lake.

The storage-dam will be located at Ecclestone Slough. The capacity of the reservoir to be created is about 3,000 acre-feet, and it will flood about 219 acres of land. The water will be diverted from the stream at a point about Intake "F" Water Rights Map 8401 (Glenmore Irrigation District diversion on Mill Creek), and will be used for irrigation purpose upon the land described as Glenmore Irrigation District.

This notice was posted on the ground on the 16th day of May, 1930.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

GLENMORE IRRIGATION DISTRICT.
Applicant.
By W. R. Reed, Agent.

The date of the first publication of this notice is May 29th, 1930. 42-5c

BANK OF MONTREAL REPORT SHOWS STRENGTH

Rest Account Exceeds By Two Millions Paid-Up Capital Of \$36,000,000

The Bank of Montreal is now forwarding to shareholders a particularly satisfactory statement for the half year to April 30th.

In the face of unusual conditions, the Bank has been able to keep strong in liquid assets and cash and at the same time to show satisfactory profits. In the general statement one of the outstanding features is the increase in current loans in Canada. Both Capital and Rest are at new high levels. The Paid-up Capital stands at \$36,000,000, up from \$34,548,760 a year ago, while the Rest has been increased to \$38,000,000, from \$35,548,760, at which level it is \$2,000,000 above the Paid-up Capital.

It is likely due to the larger capital employed that the Bank has been able to report to shareholders slightly increased profits for the six months, as compared with the corresponding period last year. Profits amounted to \$3,543,017, up from \$3,491,651. There were also received in the six months payments of \$1,459 as premiums on new stock. At the same time there is a somewhat unexpected increase in current loans and discounts in Canada and these now are reported at \$335,301,194, up from \$314,464,137. While a portion of this increase may be attributed to the wheat situation, it is also known that there is an increased tendency on the part of large customers to avail themselves of banking accommodation.

As was to be expected, with the change in the general credit situation throughout the world, the most important variations are in the call loan department. All loans in Canada are down to \$27,469,856, from \$39,359,779, and call loans in Great Britain and the United States have been reduced to \$68,028,615 from \$139,974,369. At the same time, balances due to banks and banking correspondents elsewhere than in Canada—which to a great extent represented deposits temporarily placed on this side due to higher loan rates—are now down to \$9,660,804 from \$35,597,167.

Fixed deposits are reported at \$688,067,752. Of this amount deposits bearing interest are \$545,856,287 and deposits not bearing interest \$130,418,937.

It is reported that the Famous Players Canadian Corporation have purchased the Empress Theatre building at Penticton and that they will expend some \$20,000 in improvements, new equipment, etc. Talks are to be installed during the month of June. It is understood that Mr. J. C. Berry, manager, intends to move and take up his residence at his Coast home.

Twisting a long threaded bolt in its handle tightens or loosens the strings in a tennis racket invented by a New York man.

THE BANKRUPTCY ACT

In the Estate of George Rowcliffe Limited, Bankrupt.

NOTICE is hereby given that George Rowcliffe Limited was adjudged bankrupt and a receiving order made on the 28th day of May, A.D. 1930, and that I have been appointed by order of the Honourable Mr. Justice D. A. McDonald custodian of the estate of the said bankrupt until the creditors at their first meeting shall elect a trustee to administer the estate of the debtor.

NOTICE is further given that the first meeting of the creditors in the above estate will be held at the Court Room, Casorso Block, Bernard Avenue, Kelowna, British Columbia on Thursday, the 12th day of June, 1930, at the hour of 11.00 o'clock in the forenoon.

To entitle creditors to vote thereat, proof of their claims must be lodged with me before the meeting is held. Proxies to be used at the meeting must be lodged with me prior thereto.

AND further take notice that proof of claims of all persons for which they are entitled to rank must be filed with me or the trustee when appointed, otherwise the proceeds of the estate of the said Bankrupt will be distributed among the parties entitled thereto, having regard only to the claims which notice shall then have been given.

DATED at Kelowna, B. C., the 31st day of May, 1930.

EAST KELOWNA

A number of enthusiastic sports and others interested followed the road race from Vernon to Kelowna on Saturday morning and encouraged the cyclists. Two of our boys are to be congratulated on their fine performance. Arthur Clarke, nephew of Mrs. C. Tucker, won second place in Class A, and Ralph Bean came second in Class B. They both have the makings of champions.

We were pleased to see Mr. and Mrs. J. Young visiting the Benches and Kelowna again and to hear they had a fine motor trip from the Coast. May their sojourn in our midst be pleasant and make some happy reunions of old friends. They are visitors at the Royal Anne Hotel.

This is the magic month for roses and brides. What romantic thoughts they conjure up! It looks like a fine blooming of roses this month, and it is a pleasure to see the gardens on the Benches. By the way, have you heard this cynical yarn? (Of course it is no reflection on brides or matrimony.) A man was hurrying along Pendozi St. when he met a friend who asked him "Why the hurry?" He answered, "I'm just going to the doctor. I don't like the looks of my wife." The friend said, "Wait a bit, I'll go with you, I hate the sight of mine." Needless to say, neither carried roses.

Pleased to note the grader is at work on the top bench. There always seems to be plenty of work to be done on the grade, and many of us would like to see more of the curves widened out, as so many accidents have occurred on those corners, but we cannot be too exacting.

The Mission Creek School visited East Kelowna School on Monday afternoon and a very exciting soft ball game was played. East Kelowna senior boys won their game against the Mission boys, but the girls of the Mission School proved smarter than ours, and the junior boys from Mission School. Following is the score: Senior Boys, 19-16; Junior Boys, 22-20; Girls, 19-18. Mr. Ritchie and Miss McLeod acted as referees and Mr. Reynolds and Miss Moodie as markers.

It was a pleasant sight to see the cars and trucks filled with happy picnickers passing on Tuesday, the 3rd, on their way to Summerland and the Rutland sports, dressed in their summer frocks and all wearing a holiday expression, with fat hamper filled with good fare for the robust appetites. Our correspondent envied them the latter, being on a diet that makes one fearful of looking a cow in the face.

For some time the big engine purchased from the City Council at great expense, has been working at Cariboo Lake, pumping water from that Lake into Haines Lake and thence into the Dam. The transportation and installing of the engine was a great achievement. Mr. Alf. Smith literally blazed a trail through almost virgin forest with a tractor, far off the beaten track. It was quite a Herculean task and all who took part in the undertaking are to be congratulated on its success. Our water manager Mr. W. Affleck, has had lots of work and worry, but he always comes through with a smile.

The antelope is the swiftest of North American animals.

President Of B.C.L.T.A. To Referee
Interior Championship

It is regrettable that Mr. J. G. Brown, of Victoria, who for the past four years has handled the duties of official referee at the Interior of B. C. Championships, will be unable to make the trip this year. However, the committee have fortunately been able to persuade Mr. F. D. Nicholson, President of the B. C. Lawn Tennis Association, to act in this capacity. Mr. Nicholson, who is now residing at Vernon, has refereed many important tournaments at the Coast.

Mr. V. D. (Turk) Lewis was at the Coast during last week and reports that many well known Vancouver, Victoria and Seattle players are planning to compete in the Interior Tournament, which will be held on the local courts in July.

Club Tournament Now In Full Swing

The Club Tournament is now in progress, all events have a good entry list and many keen matches are expected during the following three weeks; the first two rounds have to be finished by June 15th.

GOLF

Trench and McEwan Trophies Remain
In Kelowna

One of the most successful day's play ever held on the Kelowna Golf Club course featured the Holiday on June 3rd, when the Trench and McEwan trophies and replicas were at stake. The former, a handicap event, was won by J. M. Robinson, of Kelowna, with a nett score of 131 for the 36 holes of play. The runner-up, E. S. Jones, of Kamloops, took 137 nett on the round. Robinson had an 88 and 91, plus a 24 handicap, while Jones took a 90 and an 83, plus an 18 handicap. The next best in this competition was undecided on the day's play. J. Hunt and St. G. Baldwin being tied. They will decide the issue at a later date.

The McEwan Cup also remains in Kelowna, Chester Owen defeating the field in an extra hole finish when he and Fred Irwin, of Kamloops, were tied with 167 at the end of the 36 holes. Owen had an 83 and an 84, while Irwin took 89 and 88, but turned in a 78 on the second journey, a performance that gave him the low gross of the day. Next best in the McEwan Cup competition was H. Nicholl, of Penticton, with a score of 171. The prize for low nett score went to J. M. Robinson, the winner of the Trench Trophy, on his first round score.

Winners of the Hidden Hole competition were: Kelowna, G. L. Campbell; Kelowna, Peter Stokes; Salmon Arm; M. S. Kydd, Kamloops, and Fred Irwin, Kamloops. The long drive contest was won by Alex Seon, of Kelowna, with a 274 yards drive and an aggregate of 3 balls 251 each.

JUNIOR CRICKET

Kelowna Eleven Defeats Vernon Preparatory School Team

A large number of spectators were present at a very interesting cricket match played here last Saturday between the Vernon Preparatory School and the Kelowna boys' eleven. On the day's play the teams were very even, Kelowna finally emerging victorious by the score of 60 to 50.

Fortunately, none of the visiting batsmen got into their stride, and it was quite a relief to Kelowna to see Russell, who has already made a century this year, dismissed for only six by an unlucky play-off on Dadd's bowling. Perhaps the outstanding features of the game were the very good bowling of the Vernon boys and the clean fielding of the Kelowna players. Kelowna went in first but the scoring was slow. Russell's bowling being treated with the respect it deserved. The first six batsmen, however, knocked up 57. Verity, Hill and Aikman playing well.

For Kelowna, Verity and Reed were the bowlers relied upon, though their bowling was obviously the weakness of the side. The catches, however, were held and for this reason Kelowna won the match. Campbell's catch at square, by which he dismissed Radcliffe, was very well taken, as were two catches—Dodd, one by Loyd, and a low catch at point by Verity—which concluded the game after the last two batsmen had put on a dangerous number of runs. There were too many extras allowed by Kelowna, these amounting to four wides and five byes, which is an indication of lack of bowling practice. The batting was also very rugged and there was a terrible absence of style. However, it is hoped that the end of the season will see an improvement all round. The matches with Rev. Mackie's school are always much enjoyed, and the keenness of the visitors is happily of a contagious quality.

The score follows:

Kelowna	
Reed	5
Loyd	5
Hill	13
Verity	17
Aikman	12
Campbell	5

B. C. PRODUCTS
FOR B. C. PEOPLE

Encourage Local Industries And Provide Home Opportunities For The Young People

You hear it discussed everywhere. It is a favourite theme for political speeches. It is a topic of particular interest to parents. "Why are there not more opportunities for young men in British Columbia?"

Many theories are expounded as to the cause of this absence of openings for the thousands that are graduating from our schools and University—the tariff—the prohibitive freight rates eastwards—high taxes—bad government. . . any reason in fact, as long as it is one for which some one else is responsible. There is more to this subject than appears on the surface. Most of us know, for instance, that the per capita effective income of the people of British Columbia is higher than in any Province in Canada. The figure is now \$836.00. If we take out our pencil and do a little figuring, we discover that when this per capita income is multiplied by the number of people in the Province, 606,000, that the total effective income of these people is over five hundred million dollars! If we compare these figures with those of other communities either on this side of the international boundary line or on the other side, we will be surprised to find that British Columbia ranks very favourably with any section of this continent. Why, then, should there not be more opportunities in our own province than elsewhere?

We will find the answer to our query by tracing this gigantic river of gold from its source to its outlet. Like the mighty Fraser, it begins its journey among the hills of British Columbia. From every town and hamlet there flows a constant stream of buying orders for the hundred and one necessities of life. Even the lonely prospector in the far-flung frontiers of the north adds his quota to this ever growing stream. Six hundred thousand people require millions of dollars worth of foodstuffs, millions of dollars worth of clothing, millions of dollars worth of tools and equipment. The golden stream grows larger as it travels onward. The larger cities open their flood gates and hundreds of millions more are poured into the swirling stream.

Five hundred million dollars is a lot of money. Where does it all go? A considerable portion of it, of course, is diverted into channels where it is put to work here in British Columbia. It becomes a form of power which keeps the wheels of our industries revolving, but unfortunately too much of it is allowed to flow into other hands where it is used to create wealth that pays no taxes in this Province. And opportunities follow the money we send away. Every time we make a foreign purchase of any kind without first making a serious effort to secure a British Columbia article, we are helping to increase the flow of this river that carries with it the opportunities we afterwards seek at home. We make excuses to ourselves, of course.

We say that British Columbia manufacturers must stand on their own feet, that they must compete in quality and price. Not only is this very clearly understood by manufacturers in this Province, but many instances can be cited where products of British Columbia factories are actually of higher quality, but no higher in price, than those made elsewhere.

During the past five or six years there has been a very marked change in the attitude of the average buyer. More and more consideration is being given to British Columbia products. This changed attitude is reflected in the growth of old industries and the beginning of many new ones. This change in sentiment on the part of the buyer has been so marked within the last two

THINNING THE APPLE CROP

(By R. C. Palmer, Assistant Superintendent, Experimental Station, Summerland, B.C.)

While winter injury and spring frosts have taken their toll in some districts, the set of apples in the Okanagan valley as a whole appears to be heavy. Accordingly, it is now more than ever a question of the problem, "when should thinning be started, and what distance apart should apples be spaced?" The following brief suggestions are based on extensive thinning experiments conducted at the Summerland Experimental Station during the past ten years.

With varieties such as Duchess, Yellow Transparent, and Wealthy, which commonly set several fruits to a spur, thinning may well be begun soon after the calyx stage. The Newtown should also be thinned early in the season as the short stems characteristic of this variety make the work very difficult unless it is done while the fruits are still quite small. McIntosh, Delicious and Grimes Golden frequently thin themselves to one apple to a spur, so that with these varieties it is advisable to delay thinning till after the "June drop." With the Wagner some apples seem predestined to grow small regardless of the time or amount of thinning done. By delaying the operation till fairly late most of the inferior fruits can be identified and removed. It should be borne in mind, however, that with all varieties the labour of thinning is greater and the effect is less as the season advances. As a general rule, the work can be most advantageously performed when the fruits are from an inch to an inch and three-quarters in diameter.

For best results, distance of spacing should be modified according to the variety, vigour and amount of crop carried by each tree. Unduly heavy thinning favours the production of overlarge fruit with impaired keeping quality. This is especially true of Cox Orange, McIntosh, Jonathan, Newtown, Northern Spy, and Winter Banana. For this reason little thinning is desirable on young or lightly loaded trees of these varieties. However, in mature orchards where the crop is heavy it is usually necessary to remove all but one apple to a spur and to space the remaining fruits about three inches apart in order to prevent overloading and consequent high proportion of low-grade fruit.

With Yellow Transparent, Duchess and other early apples, used largely for culinary purposes, it is desirable to secure large size as quickly as possible. In order to do this it is often necessary to space the fruits six inches apart. Similar spacing is also justified on full bearing Delicious and Rome Beauty trees. The Delicious attains full quality only in fairly large specimens. Large size is especially desirable in the Rome Beauty as this variety is used

years—many manufacturers have been encouraged to branch out into finer grades than have hitherto been made in the Province. Industrial progress in British Columbia is definitely under way. All of this has been brought about by a realization on the part of the citizens of this Province that British Columbia products are at least the equal of goods they can obtain elsewhere. From now on, what is required is the cultivation of a friendly feeling of co-operation between consumer and manufacturer and a realization of the fact that through this co-operation more and more opportunities can be created for our young people, bigger payrolls can be distributed, and a period of substantial prosperity can be brought about by each one of us making it our particular job to insist on British Columbia products on every possible occasion.
